

PC-FIXED Farming Business Management PC

Designed to meet or exceed the recommended specification required by the Welsh Government's small grant efficiency scheme

This model comes preloaded with Windows 11 Pro and features the latest Intel Core i3 Processor, a Gigabyte Motherboard, 256GB NVMe SSD, 8GB RAM, and a Dual Band WiFi Card. The PC is completed by a PiXL 24" monitor and a quality Logitech wired Keyboard and mouse.

Optional upgrades include the next level i5 CPU, increased memory, larger storage drive, and wireless Keyboard and mouse combo.

Built with industry standard components, these PCs make light work of all forms of office work from emails, to accounting, farm management and online banking etc.
